

THE POWER OF LEARNING

Skills Power People and Business

A blue-tinted background image of a desk. In the center is an open laptop with a keyboard visible. To the left, a smartphone is lying flat, displaying a webpage. A pen lies horizontally across the desk in front of the laptop. In the bottom foreground, a dark mug is partially visible. The overall scene is dimly lit, with the blue tint dominating the color palette.

YOUR SKILLS HELP YOU THRIVE
IN AN EVER-CHANGING WORLD

INNOVATIONS ARE CHANGING LIFE AND WORK

Data analytics
Artificial intelligence
Autonomous vehicles
Quantum computing
Virtual reality
Hypersonic flight

CHALLENGES OF THE FUTURE ECONOMY*

- More than 30% of U.S. employees will need to change jobs or significantly upgrade their skills by 2030
- 43% of college students are under-matched
- 50% of work activities have the potential of being automated
- Approximately 60% of states lack effective mechanisms to measure graduates' long-term employment and education outcomes
- 90% of executives say their companies are not prepared to address the skills gap

COVID-19 has accelerated the need for skill development and advancement strategies

ELOCKER INTEROPERABILITY

ELocker's learning ecosystem exchanges **data across a full range of products**, made by different vendors, and encountered throughout a lifetime of learning

INTRO VIDEO TO LEARNING AND EMPLOYMENT RECORDS

ELOCKER TRANSFORMS THIS SIMPLE LEARNING MODEL

THE END OF THE OLD MODEL

"We have spent years trying to **move past an assembly line type of education mentality**. When given the chance to change we need to embrace it, not go back to what is comfortable, or the way we have always done it." - Corey Henwood, high school education innovator

Graphic by Awantha Artigala

THE ELOCKER LEARNING ECOSYSTEM

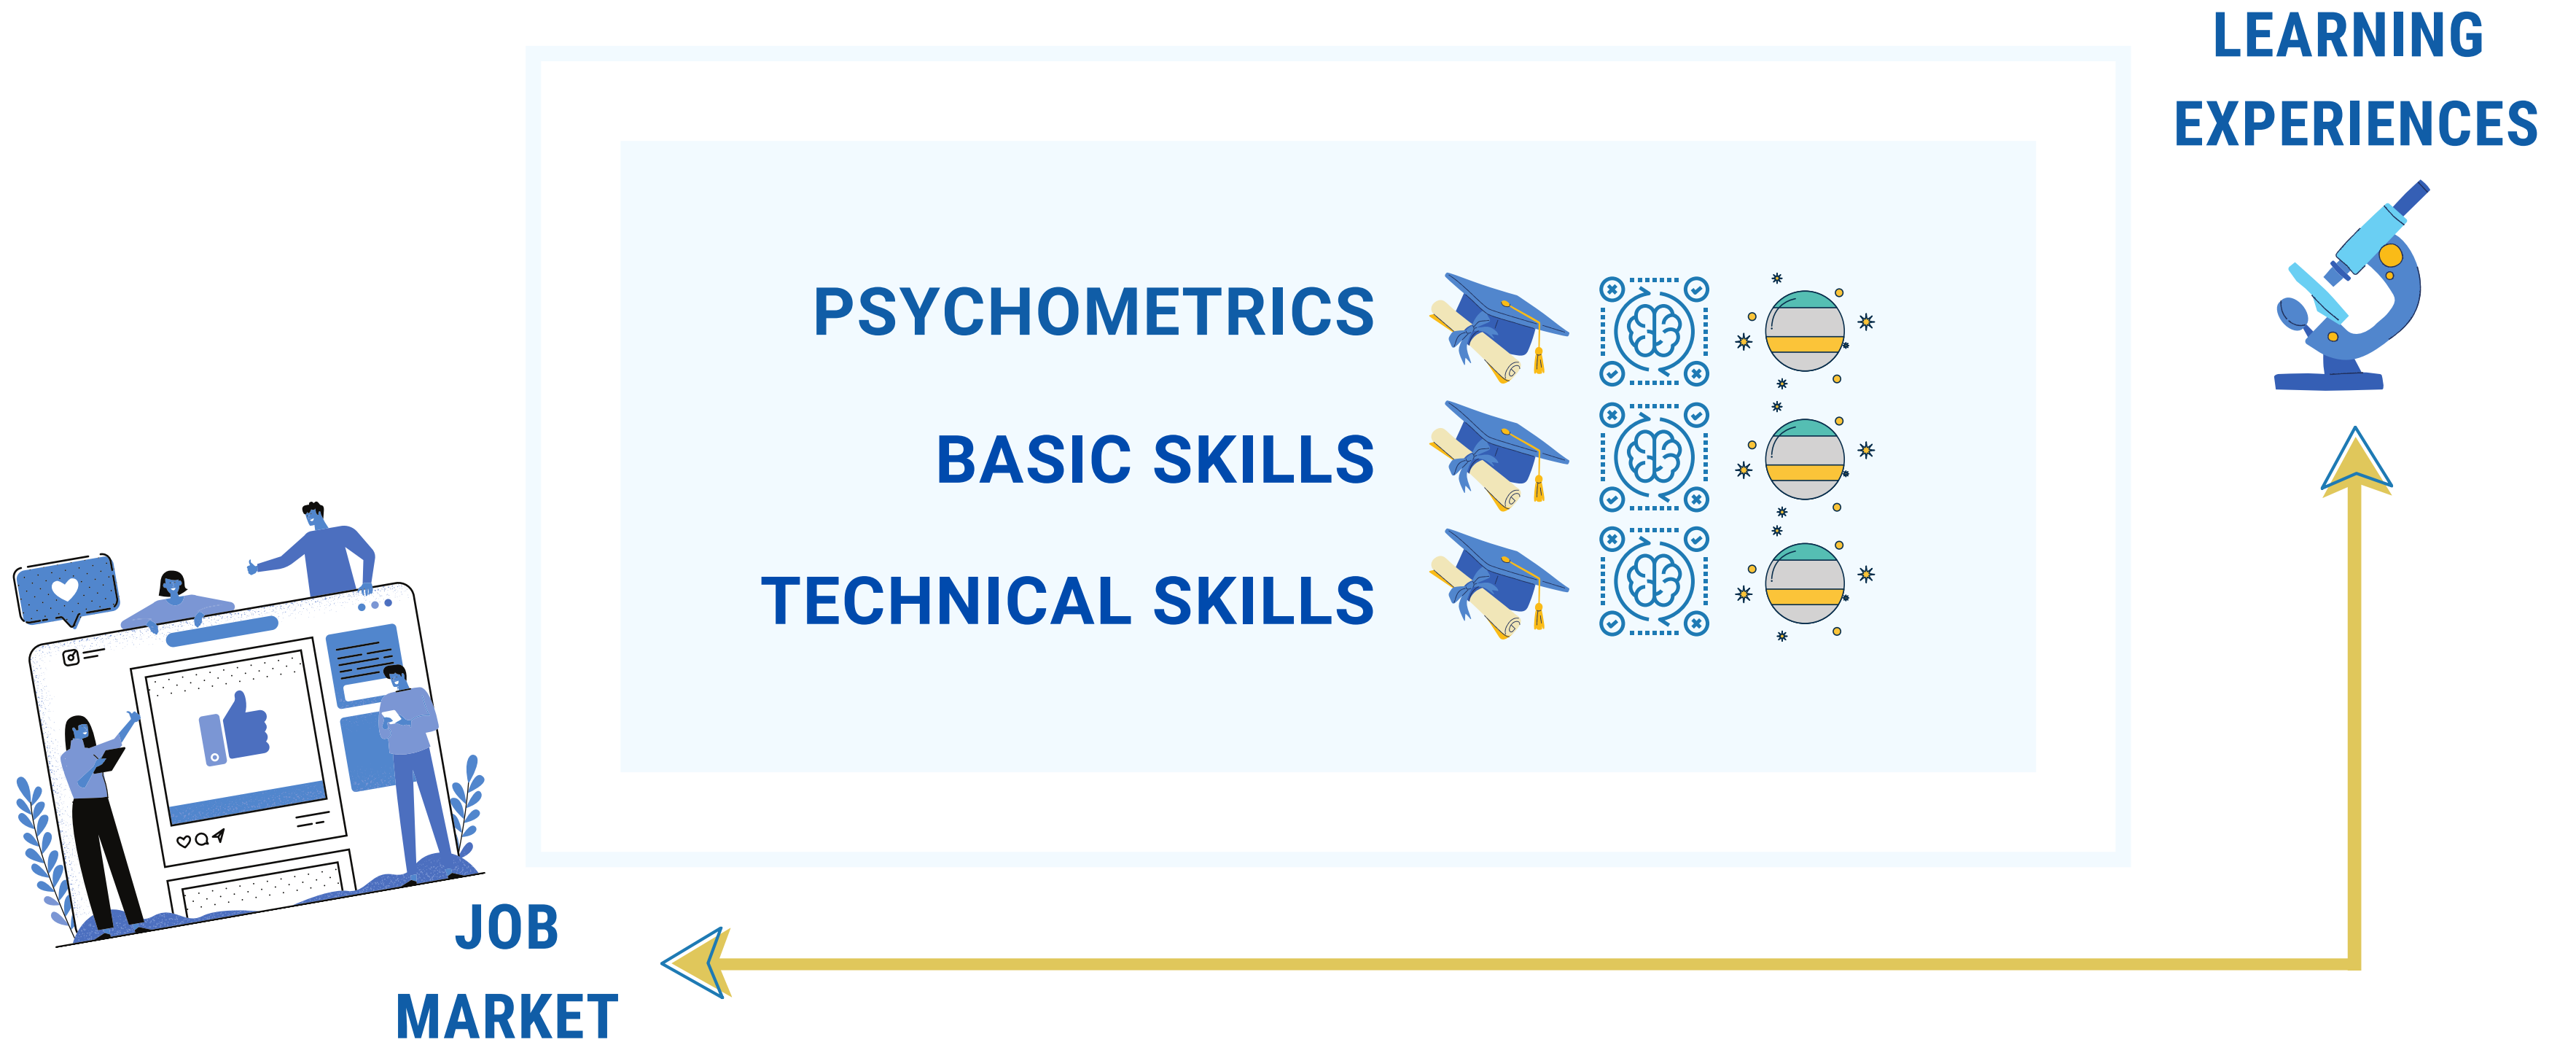

- **Integrates, curates and personalizes** all learning and development in one safe, secure place
- **Incorporates formal, informal and experiential** learning
- **Connects people with local jobs and opportunities** to sharpen skills to reach even higher

AN AI-POWERED SKILLS ECOSYSTEM

THE SKILLS-BASED LEARNING MODEL

THE SKILLS-BASED LEARNING MODEL (CONT.)

- Facilitates additions or modifications to learned skills to **adapt to changing occupations and professions**
- Incentivizes students to pursue additional certifications to **earn profession or occupation badges**
- Awards **certifications and evidence of skills**, even if full curriculum not completed
- Offers **lifelong learning opportunities** with the institution

RESULT: INCREASES EMPLOYABILITY RATES

ELOCKER'S LEARNING ECOSYSTEM CLOSES THE SKILLS GAP

- Student interests and learning experiences
- Personalized educational path
- Student knowledge and skills profile

ACHIEVEMENTS

THE ELOCKER LEARNING MODEL

DATA

- Collect data of life learning experiences
- Assess student on performance

CURRICULUM

- Transform into flexible, skills-based curriculum

CODIFICATION

- Create unique categorization that measures skills and generates an evidence portfolio

GAPS

- Identify skills gaps and create personalized path

ELOCKER FEATURES

LEARNING

- Aggregate learning experiences
- Create and curate learning experiences
- Measure and manage learning

SKILLS

- Assess and document evidence of skills
- Certify skills
- Create evidence portfolio
- Follow skills paths toward a profession or occupation

JOB

- Use AI to understand skills needed for certain jobs
- Find skills gaps
- Recommend and create personalized skills paths
- Receive job, internship and apprenticeship opportunities

CREATE AND CURATE LEARNING EXPERIENCES

CREATE ACTIVITY PATHS FOR
PRACTICE LEARNING EXPERIENCES

ENCOURAGE STUDENT REFLECTIONS
ON THEIR EXPERIENCES

STUDENT TRANSFORMATIVE LEARNING RECORD*

Helps students track growth in core areas that resonate with employers and graduate schools

STUDENTS GET CREDIT THROUGH:

STLR-tagged class assignments, events, student groups, out-of-class projects, and visiting STLR locations

CREDITS APPEAR IN:

Students' STLR Snapshot online dashboard

REDUCE THE SKILLS GAP

EVALUATE AND ASSESS SKILLS

- Data-driven correlation between learning experiences and related skills development
- Tools for evaluating evidence of skills
- Tools for assessing skills

FOLLOW SKILLS AND LEARNING PATHS

- Create an occupation or profession with the skills level needed
- Demonstrate progress toward earning the occupation/ profession badge
- Identify the path of skills and learning experiences needed to gain certification

CERTIFY SKILLS

- Create skills levels based on evidence, practice and knowledge
- Create badges for accomplishments and documented skills
- Manage certification process

BECOME FLEXIBLE IN YOUR CURRICULUM

FOR STUDENTS

- Eliminate the need for certain courses or hours if they can demonstrate skill with industry certification or evidence and assessment
- Identify learning experiences that would benefit skills development

FOR THE INSTITUTION

- Transform into a lifelong learning institution
- Communicate with your students throughout their lives with ELocker
